Our no-cost support involves understanding the current processes, challenges and goals to tailor assistance to your specific needs.

Superior Health Quality Alliance believes good health requires great connections. We serve as the bridge between the important goals of the Centers for Medicare and Medicaid Services (CMS) and the unique needs of our local communities.

Drawing on decades of experience, we are dedicated to supporting hospitals by providing premium, hands-on quality improvement assistance to help achieve health care quality and safety goals for your patients.

We are not here to add to your responsibilities—we are here to elevate your results. As your trusted advisors, we are fully committed to your success, because your success leads to better outcomes and higher quality care for the patients we all serve. **You have direct access to us as a no-cost, non-regulatory resource.** We provide insight, support and partnership to help improve quality of care.

Hospitals and patients could benefit from:

Reducing

- Healthcare-acquired infections
- Opioids prescribed
- Pressure injuries
- Readmissions
- Emergency department (ED) arrival to discharge time
- Patient Safety Index-90

Increasing

- Vaccination rates
- Follow-up care after substance use-related ED visit

Improving

- Quality Management
- Emergency preparedness
- Health information technology (IT) and interoperability

Let's work collaboratively to achieve your patient safety and quality improvement goals.
